
Title: Codex of Revenance

Author:

Book I:
Of the Death
Knight's Calling

1: Death Knights are
the physical
manifestations of
Entropy, and walk
amongst the living for
no purpose save this:
Slay the living,
consigning life energy
unto Oblivion. Mine
realm and mine might
increase and grow
stronger with the
death throes and final
cry of each
mortal offered unto
me.

2: To walk Sosaria
as a Death Knight is
to represent the
futility of all that
the living hold to be
good and righteous. It
shall glorify
Entropy in all its
endeavors, and wreak
havoc upon the
standard bearers of
virtue at any
opportunity. It shall
carry the wrath of
the
Abyss unto the most
exalted of mortals,
laying bear the
weaknesses of their
philosophies.

3: The Death
Knight shall never
forget its capacity for
reason; yea, my

warriors are not
mindless automatons!
They do exist by my
will,
and at my whim. If
any shouldst fail to
please me in the
manner by which it
carries out its
Reapings, I shall
strip it of its stature
forevermore.
